

Sprint 3 Report - Slug Events - Jullig Jammers, 5/23/23

The sprint report must contain the following elements:

- **Actions to stop doing:**

- Being late to meetings

- **Actions to start doing:**

- Use trello board more consistently
- Use github issues more
- Start writing documentation for code
- Start looking up how to unit test/write tests for code
- Organize our github repo a bit more

- **Actions to keep doing:** This is the answer to the question, "What is working well that we should continue to do?" The items should take the form of a brief description of what the team wants to start doing, followed by a brief explanation.

- Staying on task during meetings

Work completed/not completed: This is a list of the user stories that were completed

- **User story 1: As someone who's on campus, I would like to be able to have a map to visualize events on campus (Map Visualization)**

Not Completed:

- **User story 2: As a student on campus, I would like to be able to learn more about different events by clicking on the map (Map Visualization)**
- **User story 3: As a student on campus, I would like to be able to filter different events with map visualization (Map Visualization)**

- **Work completion rate:** This section should report the following:

total number of user stories completed during the prior sprint: 2

Total number of estimated ideal work hours completed during the prior sprint: 45 hours

Total number of days during the prior sprint: 2 weeks

For the previous sprint, the user stories/day and ideal work hours/day figures should be

reported. For sprints past the first sprint, this section should also provide the average user stories/day and average ideal work hours/day figures computed across all sprints to date. The final sprint burnup chart for the previous sprint should be available for viewing in the lab and an email of this chart sent to the TA/prof.

Sprint 3 Burnup Chart
