

Sprint 2 Report - Slug Events - Jullig Jammers, 5/9/23

The sprint report must contain the following elements:

- **Actions to stop doing:**

- Stop standup meeting after every CSE115 lecture because people usually stop attending lectures. .

- **Actions to start doing:**

- Start using Github issue, inputting features in the beginning of the sprints.
- Remote meetings for smaller meetings
- Start Documenting programming process

- **Actions to keep doing:** This is the answer to the question, "What is working well that we should continue to do?" The items should take the form of a brief description of what the team wants to start doing, followed by a brief explanation.

- Set up meeting goals before the meeting

- **Work completed/not completed:** This is a list of the user stories that were completed

- **As a student, I would like to filter events through different colleges (Filter Events)**
- **As an event organizer, I would like to be able to create events (Ability to create events)**
- **As a student, I want to be able to comfortably read through different events so that my experience with the app is intuitive**
- **As a student, I want to be able to scroll through a list of events and choose the ones I'm interested in so that I have a better school experience**

- **Work completion rate:** This section should report the following:

total number of user stories completed during the prior sprint: 4

Total number of estimated ideal work hours completed during the prior sprint: 34 hours

Total number of days during the prior sprint: 2 weeks

For the previous sprint, the user stories/day and ideal work hours/day figures should be reported. For sprints past the first sprint, this section should also provide the average user stories/day and average ideal work hours/day figures computed across all sprints to date. The final sprint burnup chart for the previous sprint should be available for viewing in the

lab and an email of this chart sent to the TA/prof.

Sprint 2 Burnup Chart
