Notes:
- MUI Theme Creator
- Design reflects MVP of app

MUI Button / Icon?

events can be filtered based on what college posted the event by clicking college icon

On college button press, the view of events will change based on what is selected.

Default should show all college events.

Future Plans:
- add location based data for events
- be able to see on a map view what events are happening near yo
- add voting for events
- create custom events

When an event ended:
A page for past events

On click: user goes to the original insta post image.

back button

Homepage

Home   Map

College Name

⊗

- Each Event post should have it's own color/design to differentiate

- Default is sorted by date posted

EVENT

event details:
location
time

⇧ ⇩

C9/ JRL   Porter/ Kresge   Crows/ Stevenson   Oaks/ RCC

the underline indicates which page user is on

User can toggle between pages

- Users get to up-vote or down-vote events

- events can be sorted based on popularity
